BM GROUP	**Technical sheet**	**No.** 32UD05A **Issue** V01.0

Product family: Tools - High insulation pliers

Item code: 1251

Description: INSULATED PLIERS · FLAT NOSE

Image

Features

- high security isolation
- the BM pliers are subjected to numerous tests and are in compliance with the EN 60900 standard for live applications up to 1000V: high temperature test, flame resistance, low temperature test, pressure test, mechanical seal test of the handles, dielectric water bath test to 10000 V
- high performance and durability thanks to the chrome-vanadium steel structure with induction hardening treatment
- ergonomic bi-component handle with safety slip guard and anti-slip grooves

Specifications

TIP MATERIAL: chrome-vanadium steel

HANDLE MATERIAL: bi-component elastomer

TYPE: flat nose

ACCORDING TO STD.: EN 60900:2004 (IEC 60900:2004)

Code	Length (mm)	Weight (g)
