Product family: Panel boards components - Cutter and puncher for DIN rails
Item code: 2691
Description: CUTTER AND PUNCHER · FOR DIN RAILS

Image

Features

Cutter and puncher for EN 50035, EN 50022, and EN 50045 rails. The tool is designed for extremely rapid, precise and safe cutting and punching of standardized support metal rails. It makes neat cuts without scraping or deforming the bar.

Punching is done by means of a separate operation and enables to make Ø 6.5 mm holes. The tool is supplied with a bar lock to set the cutting and punching length. This makes repeat operations easier.

Specific dies and guides for the standardised metal rails are available.

Additionally, a complete hydraulic kit is available; it allows the connection to a hydraulic pump.
